## Rotarians To Join in Anniversary

The Albany Rotary Club is joining with more than 8400 other Rotary Clubs in 89 countries and geographical regions throughout the world in commemorating the Golden Anniversary.

In tracing the growth of Rotary, President Irwin said: "The first Rotary Club was organized in Chicago on Feb. 23, 1905, by Paul P. Harris, a young lawyer, who suggested the idea to a group of his friends. The name 'Rotary' was selected because the first meetings of the club were held in rotation, in the offices of its members. The Rotary ideas of fellowship and service to others soon spread from city to city in the United States and Canada and then crossed the oceans to every continent.

"For half a century, Rotary has grown in numbers and strength. In the last 12 months, for example more than 450 new Rotary Clubs have been organized in 58 countries of Europe, Africa, Asia, the Americas and the Islands of the Pacific."

"We are observing not only the golden anniversary of the founding of Rotary, but of the entire service club movement," asserted President Irwin, "since Rotary was the pioneer club to establish its fundamental characteristic the spirit of altruism and of service to mankind. As Charles W. Ferguson, senior editor of The Readers' Digest has written, 'the founding of Rotary loosed an idea that was by no means confined to the club that Paul Harris and his associates evolved. It is still rampant and the vitality of it is to be found in the proliferation of comparable clubs.'"

## FORMOSA Key to the Orient

By H. F. WELLER

(Continued from Last Week)

### 5 MILLION PEOPLE

The population of Formosa in 1935 was 3,212,426, including 282,012 Japanese and 59,243 foreigners of other races.

The natives may be divided into Mongolians and aborigines. The aborigines are of uncertain origin. They are a well-built, wiry people, of medium stature, and are organized in numerous clans and tribes, differing in languages, customs, and physical characteristics, and hostile to one another. A number of the tribes practise head-hunting. Many of the tribes have mingled with the Chinese, adopting their language and customs.

During the nearly 50 years of Japanese occupation all attempts to subjugate the more remote mountain tribes have failed. In the northern mountains a frontier zone of more than 350 miles has been blocked off by barbed wire electric charged fence to protect the settled areas from incursions by the still unsubdued aboriginal head-hunters.

### CHINESE FIRST

Formosa is said to have been discovered by the Chinese, and Chinese records tell of an expedition to Formosa in 603 A.D. The Portuguese visited it in 1590, and the Spanish occupied it early in the Seventeenth Century. The Spaniards were expelled by the Dutch, and they, in turn, were driven out in 1662 by Chen Kung, or Koxinga, a Chinese pirate general, who set up a government of his own. After a reign of 23 years he surrendered the island to the Manchou emperors of China, who continued to rule it more or less firmly until 1895, when it was ceded to Japan at the close of the China-Japanese War by the Treaty of Shimonoseki.

The Japs had previously had a brief hold on the island when a punitive expedition from Japan seized the island in 1874. The Japs soon after withdrew in response to a formal protest from Peking. Another brief lapse in the Chinese control occurred in 1884, when Kelung was taken by a naval expedition under Admiral Courbet of France, following some attacks on French missionaries. The French force withdrew in June, 1895.

### FISH ISLANDS

The Pescadores, or Fish Islands, a group some 40 to 50 miles due west of Formosa, are bare, low and windswept, and are inhabited by approximately 50,000 Chinese fishermen. Prevalence of violent northeast winds during six months of the year, prevents the growth of trees. Dried fish is the only export.

There is also a mountainous island of some size, about 50 miles off the southeast coast, inhabited by a peaceful, uncivilized race, differing in customs from the Formosa races. These people use boats,

high in both bow and stern, and their houses are built in several stories, with sleeping rooms, separate work rooms for men and women, a bathhouse, and a lookout, all in one. The lower story is often below the level of the ground. This island is called Botel Tobago. A smaller island off the northeast coast is Samahana.

### RIUKIU ARCHIPELAGO

Formosa lies approximately 75 miles west of the tip of the Riukiu Archipelago which sweeps down from southern Japan in a long wide curve. Okinawa, where the United States has a huge air base, lies about half way down this long curve. Formosa is bounded on the northeast by the East China Sea, and on the southwest, by the South China Sea. Less than 200 miles south of the lower tip of Formosa lies the Island of Luzon, most northern island of the Philippines, and on the southern part of which the City of Manila is located.

Hong Kong is a little more than 400 miles to the southwest, and Shanghai about the same distance to the north. Tokio lies about 1200 miles in a direct line to the northeast, but the sea route probably would be nearer 1500 miles. Pusan, in southern Korea, is about half that distance from Taipei, the Nationalist headquarters in Formosa. Singapore is about 2000 miles to the southwest from the Formosa Strait.

## Deadline on Bicycle Licenses

The Albany Police Department has just issued a warning to bicycle owners who have not as yet obtained their 1955 licenses, calling attention to the fact that Feb. 28 is the last day at which the regular fee of 50 cents will obtain. Starting March 1, there will be a penalty of 50 cents added, bringing the fee up to one dollar. The department also warns that those without 1955 plates will be subject to citation.

## Dagna's to Aid Parking Problem

Dagna's Market, at 1382 Solano Ave., has just established a new service for its customers. During the busy hours when parking is a problem, there will be someone available to help you find a place to park. He will spot the open spaces as they appear and direct you to them. Look for the man in the red jacket!

The inescapable price of liberty is an ability to preserve it from destruction.—General Douglas MacArthur.

## MADISON REZONING DENIED

Albany City Council on Monday night denied an application for rezoning of property on Madison St., between Solano Ave. and Washington, after hearing arguments for and against the proposal.

A petition bearing the names of 23 property owners in the immediate vicinity, opposing the rezoning, had previously been filed with the Council.

Mayor Howell explained that the council considers it a matter of general policy to deny such rezoning where more than 20 per cent of the adjoining property owners are opposed to the change. The proposal would have granted the right of building a five-plex in what is now listed as first residential.

A new plan for traffic islands at the intersections of Ramona and Pomona with Santa Fe was approved after Councilman Blank explained that a former plan had been tried out and proved unsatisfactory.

The move to change bus stops at the Solano and San Pablo Aves. intersection from the near side to the far side of the crossings, was postponed one week for further study.

Placing of a stop sign at the southwest corner of Calloun and Pierce Sts., adjoining the Eastshore Highway where northbound traffic turns off into Albany, was approved as a safety measure.

A report by Councilwoman Zalm on her hearing before the Public Utilities Commission relative to bus service curtailment by the Key System in Albany, was postponed one week at her request.

The proposed abandonment of train service and its replacement by bus service between the East Bay and San Francisco was held over until the matter comes up before the Public Utilities Commission for hearing, at which time it is proposed to have the City Attorney attend the meeting and protest the Key System proposal.

At the close of the council meeting Mayor Lewis M. Howell presented with a framed scroll, as a service award, by Bay View Aerie of the Fraternal Order of Eagles, "In recognition of contribution to the welfare of our community and active participation in civic affairs." The presentation was made by Judge Louis J. Hardie. The scroll was signed by Tony Kalberer, president of the Aerie, and Charles Woodstock, secretary.

## Albany's Newest Organization

The Albany Citizens' Committee for the U.N. is proud to announce the formation of Albany's newest organization—the Albany Chapter of the American Association for the United Nations. This event was voted upon at the recent January meeting. Judge Louis J. Hardie will serve as the Albany Chapter chairman.

At the Feb. 23 meeting to be held at 8 p.m. in the Cornell School cafeteria, other local chapter officers will be elected. Representatives from the West Contra Costa County Chapter of the AAUN of Richmond will be present to plan for a joint program in March which will be one of the many fine programs leading to the climactic June Commemorative meeting to be held in San Francisco.

Interested persons are cordially invited to attend these local informative and highly interesting presentations.

## City Council Meets Mondays

Meetings of the Albany City Council are held each Monday night, starting at 8 o'clock. There is a large seating space for spectators, and the public is welcome. It is here that the vital business of the city is discussed and acted upon.

Liberty is the only thing you cannot have unless you are willing to give it to others.—William Allen White.

# WHAT'S DOING

**to work in rural areas**

The telephone cable being put up by this lineman is one of the newest things in the telephone business. It looks like nothing so much as an old-fashioned twist of licorice. But actually it's six pairs of wire coated with a special abrasive-resistant plastic. The new cable was especially designed for use in telephone lines in areas where homes are widely scattered. It's extremely light and easy to work with. And its cost in use is less than other kinds of wire. Savings like this help us keep good telephone service one of the best buys in your family budget. Pacific Telephone works make your telephone a bigger value every day.

tools to start one of these jobs. It's a good place to look in the Yellow Pages of your telephone book. Fact is, the Yellow Pages list where you can find "most of anything you want. That's because nearly everyone in town has something to sell advertised in them. So next time you need something fast, just turn to the handy Yellow Pages.

## When you build or remodel

When you build or remodel, you'll want your home to have the modern features that contribute so much to its livability. And you'll want it as easy to run as possible, too. One of the best ways to take the "run" out of running a house is to have your builder or architect put built in telephone facilities in your plans. They save all those unnecessary steps from the kitchen or bedroom to the living room to answer the phone. And they cost so little. For more information, just call or drop in at your telephone business office. **Pacific Telephone.**

# Scouts Will Observe 'Thinking Day'

ance of "Thinking Day," set aside by Girl Scouts Guides throughout the world, will be observed by Scouts and members in other na- tions. The Albany area has scheduled a varied program to take place dur- ing the day.

The committee in charge of arrangements for this event consists of Mrs. Stanley Schaugard, chair- man, and the Mesdames R. C. McEachern, Frank Crouch, Ray Lan- no, Ralph Marks and A. J. Schau- macher.

The new course in handwriting at the Albany Adult Education Center is meeting with success, accord- ing to Robert G. Dennis, principal. This class, open to new enrollments from Albany and neighboring com- munities, is so conducted that the students are developing acceptable penmanship standards of legibility, speed and appearance. The instruc- tor, Mrs. Marjorie Kane, places emphasis on correct posture, prop- er letter formation, good spacing between letters, uniform slant and a smooth even quality of line. Mrs. Kane employs in her teaching the New Laurel Handwriting Method adopted by the California State Department of Education as the standard handwriting method for the public schools of the State.

The class meets each Wednes- day evening at 7:30 to 9:30 p.m. in the Albany High School Building.

## Robley Flynn Will Manage United Crusade

The heart of the East Bay United Crusade is its thousands of vol- unteers workers—from housewives who call on neighbors in the resi- dential area, to the men who serve as plant or office chapter chair- men.

Always proud that it has been a part of the crusade, the Pacific Telephone and Telegraph Company this month has more reason to point with pride at its division manager Robley E. Flynn, who has accepted the appointment as volun- teer campaign manager of the East Bay Crusade.

The new campaign chairman has been active in health and happiness campaigns, so crusading is not a new experience for Flynn. He was active in Fresno in 1952, and has been associated with the East Bay campaigns in 1953 and 1954. Flynn is a member of the Rotary Club, the Athenian Nile, Chamber of Commerce, United Employers, and the Green Cross.

At left, Francis Crowl, president of Grace Lutheran Church, is shown pinning badge of Pro Deo et Patria citation upon Scout George Anders Fosselius at ceremonies at the church. At right is Scoutmaster Eugene Hellwig, while the pastor, Rev. O. R. Janke is in the rear looking on. This citation is the highest religious award given Boy Scouts.

## Counsel

If you were to ask any of those we have ever served, they would tell you that one of the things they appreciated most about Ellis-Olson service was the wise counsel they received during their time of need.

Our long experience, dating back al- most a quarter of a century, has given us a sympathetic understanding of the family's problems; we always feel privi- leged to make the benefit of experi- ence available to those we serve.

One a penny, two a penny, Hot Cross Buns—You probably remember the poem and the luscious fruit-filled buns from your childhood. Now, during the Lenten season, make Hot Cross Buns for your children (make plenty as the oldsters enjoy them, too). Here are the easy directions.

#### HOT CROSS BUNS

2 medium sized potatoes  
1/2 cup milk  
1/2 cup sugar  
1 1/4 teaspoons salt  
1/2 cup margarine or butter  
1/2 cup warm, not hot, water  
(lukewarm for compressed yeast)

2 packages of cakes yeast,  
active dry or compressed  
3 eggs  
4 1/2 cups sifted enriched flour  
Grated peel of 1 lemon  
3/4 cup raisins  
1/2 cup sifted confectioners' sugar

Pare and boil potatoes. Drain and put through ricer or mash until smooth. Scald milk. Stir in sugar, salt, butter and 3/4 cup of the potatoes. Cool to lukewarm. Measure water into a large mixing bowl. (warm, not hot, water for active dry yeast; lukewarm water for compressed yeast). Sprinkle or crumble in yeast, stir until dissolved. Add lukewarm milk-potato mixture. Beat two of the eggs and add to yeast mixture. Stir in half of the flour and lemon peel. Beat until smooth. Add remaining flour or enough to make an easily handled dough. Turn out on lightly floured board and knead quickly and lightly until smooth and elastic—about 8 to 10 minutes. Let rise until doubled in bulk. Punch dough down and turn out on lightly floured board. Knead raisins into dough. Divide dough in half; form each half into a roll about 12 inches long. Cut with a sharp knife into 12 equal pieces. Form into smooth balls. Place in greased 9-inch cake pans about 1/4 inch apart. Separate remaining egg. Beat egg yolk with 2 tablespoons water and brush buns with the mixture. Cover buns and set in a warm place, free from draft, until doubled in bulk. Bake at 375°F. (moderate oven) about 25 minutes. Beat remaining egg white and add enough to confectioners' sugar to make spreading consistency. Drop from tip of spoon, making crosses on tops of buns. Makes 2 dozen hot cross buns.

## Navy Program For Enlistment Of High Graduates

Chief Frank Leifheit of the Oakland Navy Recruiting Station announced today the local Navy Recruiting Station has adopted a special program for enlistment of high school graduates.

This special program will permit high school graduates to enlist in the Navy with one of the following ratings: EFSR, electronics field seaman recruit; HSHR, high school hospital recruit; HSHR, high school hospital recruit, and HSHR high school recruit, men enlisted in the above ratings will attend one of 44 Navy service schools to receive specialized training applicable to the rating in which they enlist.

High school graduates enlisted under this program will receive nine weeks of recruit training prior to attending the service school, during "boot camp" the men will be tested, interviewed and counseled to determine which school they will be best qualified for. Their choice will be the main factor in the school which they will attend, however they must meet the mental and physical qualifications for the school desired.

Chief Leifheit further stated in cases where particular school quotas are small selection will be highly competitive and that enlistment under this program affords an excellent opportunity for a young man to embark upon a Naval career.

Men interested in this program may phone Higate 4-2668 or contact the Navy Recruiting Station at the Post Office Building, Oakland.

You've probably never heard of Levi Hutchins. But when your alarm clock rings each morning you can thank Levi, who invented the thing in Concord, Mass., in 1787. (And that was even before the Russians invented it.)

If you're an average American, getting up for work, school or to prepare breakfast for your family, undoubtedly you have no love for the sound. But look at it this way—that bell is tolling for you and you do have to get up. So why not get up right away and avoid that early morning hassle?

You'll be better off in several ways. You'll enjoy washing and dressing at ease, once you've used it. More important, you'll have the time for a good breakfast—something everybody needs and all too few get.

Nutritionists say that breakfast is the most neglected meal of the day. And most of them agree that breakfast is at least as important as the other meals and should supply one-fourth to one-third of the body's daily requirements for protein, minerals, vitamins and calories.

## Part-Time Basis At Child Center

"Children's Community Center is now accepting part-time enrollments," Mrs. R. J. Seolnik, membership chairman of that nursery school, announced today.

Beginning this month, children who are two and one-half to three and one-half years old may enroll for sessions of only three mornings a week instead of the usual five. Fees have been pro-rated, with tuition proportionately reduced. This limited attendance enrollment plan, adopted at the February meeting of the board of directors of the school, is offered to East Bay mothers in answer to numerous requests for some attendance arrangement. The plan has already proved successful in cases of limited enrollment for children already attending the Children's Community Center on a full-time basis.

East Bay mothers may roll their youngsters into the new plan, may do so at 1140 Walnut Street. Additional information, obtained by telephoning Mrs. Seolnik at 4-6226 or the membership office at 4-6126.

### Mrs. Eakin Pays Tribute to Friends

Mrs. Minnie Lou Eakin wishes to thank her many friends for their kindness during her recent illness. She says:

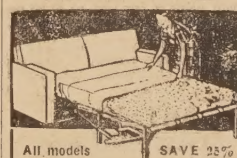

Since it will be so long before I will be able to thank my friends personally, I would like to use this method to express my thanks for the many prayers, from those of many faiths, which went with me into surgery. I also appreciate your goodwill messages, especially those helpful passages of scripture. I have loved your flowers and fruit, too. To my neighbors who gave of their blood, I pray I shall be deserving. Thank all of you so much.

## Concert Group Issues Sign-Up Cards in Survey

The Berkeley Community Concert Association, is planning by means of a survey, to determine if a second series of identical attractions is feasible. Sign-up cards are available at all Albany and Berkeley public schools.

"For seven years the association has brought delight to capacity audiences," declared Dr. Paul C. Bryan, superintendent of Albany Schools. "Now there is an opportunity to double the number who may share in the enjoyment of fine music and entertainment, and I strongly urge music lovers to sign these cards."

The deadline for mailing in the survey cards is Feb. 28. All concerts are given in Berkeley's Memorial High School Theater. More detailed information may be had by calling OLYmpic 2-3637. Mrs. Ralph E. Hoyt is membership chairman.

Blank, co-chairmen of Albany's Mothers' March on Polio, in expressing appreciation for the volunteer efforts of the hundreds of mothers—the majority of them recruits from Parent-Teacher Associations throughout the community—who took part in this dramatic phase of the polio appeal.

...it may be time to have your home wiring system checked!

A blown fuse is a nuisance. But too many re-fusings may be a warning that the wiring in your home can't handle all the appliances and lighting. In 4 out of 5 homes (new ones not excepted) wiring is inadequate. To make sure your home is wired safely—and can provide all the electric current you need for the appliances you have now—or plan to add later—why not call in a qualified electrical contractor? New wiring—as well as appliances—can be financed on easy bank terms. If you're building, ask for a "Certificate of Adequate Wiring"—proof of a first-class job.

Electricity is cheap in California!
